

Verse Bible Study Method

1. Pray

Before you start your Bible study, you should pray to God and ask Him to guide and help you in your Bible study.

2. Choose a Bible verse

Choose a Bible passage first because it is important to study the Bible verse within its context. Then pick a verse from that passage you would like to study.

3. Write out the verse in your own words

Write a personal paraphrase of your chosen verse. Try to write in your own words, not from someone else's words.

4. Write down questions, answers, and observations

Make a list of questions, answers, and observations you have on that verse.

Verse Bible Study Method

5. Find cross references

Find some cross references for the verse and write down if the reference is for a specific word, phrase, or concept within that verse.

6. Write down your insights

Write down any insights you have found in your verse study.

7. Write a personal application

Write down how you can apply what you have learned in your verse study to your own life.

8. End with prayer

You should always end your Bible study with prayer thanking God for what He has revealed to you. Ask God for helping you apply the verses and findings to your own life and to share them with other people.
